SELAH AQUA PEEL FACIAL

Selah Aqua Peel treatments combine an effective yet gentle water peel, deep cleansing, hydration, and individually selected active ingredients into a luxurious treatment experience.

Selah Aqua Peel Refresh 150 € / 60 min

Cleansing and moisturizing Aqua peel – facial treatment.

A gentle yet effective facial that deeply cleanses the skin, removes impurities, and restores freshness. Leaves the skin clean, soft, and naturally radiant.

Selah Aqua Peel Deluxe 190 € / 60 min

Deep moisturizing and brightening Aqua peel premium facial treatment.

A customized Deluxe treatment where effective cleansing is combined with deeply moisturizing, nourishing, and brightening active ingredients.

Selah Aqua Peel Ritual 230 € / 75 min

Comprehensive luxury treatment.

Selah's most luxurious Aqua Peel experience combines technology, relaxation, and overall well-being. The perfect mix of visible results, deep relaxation, and luxurious glow.

MICRONEEDLING Starting from 249 €

Skin-renewing and collagen-activating treatment.

Microneedling is an effective treatment for improving skin quality and activating natural collagen production.

The treatment helps brighten the skin, smooth its texture, and soften fine lines, acne scars, and pigmentation changes.

During microneedling, powerful active ingredients are absorbed into the skin to support renewal and moisture balance. The result is skin that looks brighter, smoother, and more vibrant.

Face 249 € / Face + neck 289 € / Face + neck + décolleté 329 € / Décolleté as an additional area + 50 €

PROFILO® Starting from 395 €

A skin-quality improving and moisturizing injection treatment.

Profilo is a high hyaluronic acid treatment that deeply hydrates the skin and activates the skin's own renewal.

The treatment makes the skin look brighter, more elastic, and well-rested. Profilo doesn't add noticeable volume or change facial features; it focuses on improving skin quality, moisture balance, and elasticity. It's especially suitable when the skin feels dry, tired, or has lost its firmness.

Treatment Information

Duration: about 20–30 min / Recovery time: usually 1–3 days / Results start to appear in about 1–4 weeks

Face 395 € / Face + neck 760 € / Recommendation: a series of 2 treatments about 4 weeks apart

PROFILO® STRUCTURA 530 € / 30-45 min

Profilo Structura is a newer treatment in the Profilo family, specifically developed to strengthen the soft support structure of the face.

The treatment helps restore the face's natural firmness and gives a subtle lifting effect. Structura works on the tissue under the skin and is especially suitable if the lower face, cheeks, or jawline have started to soften over time. The result is natural, fresh, and beautifully supportive for the face.

Treatment Information

Duration: about 30–45 min / Recovery time: varies individually, usually 1–5 days / Results develop gradually over a few weeks / Recommendation: a series of 2 treatments about 4 weeks apart

DEEP MOISTURIZING INJECTION TREATMENT Starting from 385 €

Juvederm's Skinvive and Restylane's Skinbooster are advanced medical treatments that improve skin quality. The treatments are designed especially for dry, thin, and tired skin.

Hyaluronic acid restores moisture balance, improves elasticity, smooths fine lines, and makes the skin softer, brighter, and visibly more vibrant. In a skin booster treatment, the active ingredients are delivered in tiny microinjections directly into the skin's dermis, where the most important processes related to moisture, structure, and renewal take place.

Treatment Information

Duration: 30 – 45 min / Recovery time: 1–7 days / Results: start to show immediately and develop over 2–4 weeks / Effect lasts: about 6–8 months

Restylane Skinbooster - classic skinbooster

1 ml – one area (e.g., under the eyes) 385 € / 2 ml – full face treatment 615 € / 3 ml – face + neck 905 €

Juvederm Skinvive - advanced skinbooster

1 ml – one area (e.g., under the eyes) 450 € / 2 ml – full face treatment 720 € / 3 ml – face + neck 1060 €

For the best and most even results, a minimum of 2 ml is usually recommended for the full face.
